Interclass

# Sustainable construction

Interclass joined Zellar in 2021 thanks to a GBSLEP-sponsored licence programme.

Since starting its sustainability journey Interclass has installed green technology and completed energy checks resulting in a reduction in its energy usage, bills and CO<sub>2</sub> emissions.

**10%**

## ENERGY REDUCTION

Through implementing behavioural changes in Zellar

**£1,007**  
COSTS SAVED

Lower bills as a result of reducing energy and fuel consumption

**31%**

## ANNUAL CO<sub>2</sub> SAVINGS

Taking demonstrable leaps towards net zero

### INTERCLASS

## TESTIMONIAL

*"Delivering a positive social impact in the communities we work in is, and will always be at the heart of what we do."*

*Zellar has got us thinking and behaving differently. There is a lot of generic information out there about what companies should be doing. What Zellar does is provide you with the tools, support and guidance all in one place so you can pick and choose what works for you and your business."*
