

1 - FIX LIMITED

Sustainable IT support

1-Fix Limited joined Zellar in 2022 thanks to an SSE sponsored licence programme.

Since starting its sustainability journey with Zellar, 1-Fix Limited has invested in 7 green tech projects such as cloud/IT servers and smart thermostats, calculated its building emissions and completed 5 sustainability culture actions including setting up a recurring sustainability meeting.

Based on reduction in mileage from year to year

75%

ANNUAL CO₂ SAVINGS

Taking demonstrable leaps towards net zero

1 FIX LIMITED

TESTIMONIAL

"Choosing Zellar was a strategic move for 1-Fix as we recognised the need for a comprehensive solution for monitoring and managing our carbon footprint. Zellar's innovative approach and technology provided the tools we needed to kickstart our sustainability journey. The platform is easy to use so doesn't require our busy staff to spend days entering information - just a few clicks and the basis of our plan was done!

Looking ahead, 1-Fix is committed to further expanding our sustainability efforts both short-term and long-term."
